ABOUT MORBI :

Morbi is a hub of ceramic tiles..!!

"CHEAPER THAN CHINA, BETTER THAN ITALY"

India is the second largest tile producer in the world

The province of Morbi is world famous for its ceramics.

The industrial area produces Wall tiles, Floor tiles, vitrified tiles, Polished Glazed Vitrified Tiles, Twin Charged Tiles, Multi-color charged Tiles, Big Slab in various formats starting from **8x12 mm to 1600x3200 mm** in a wide range of designs and colors. It also produces sanitary ware, industrial ceramics and technical ceramic products.

The export of Indian tiles is a very promising business direction. The tiles are produced on Italian equipment, that is, the quality and design are at the highest level, but the price is almost four times lower than the Italian and Spanish counterparts.

In Russia, in conditions of general saving, interest in Indian ceramics is actively growing.

In 2022, INDIAN MANUFACTURERS WILL FINALLY SHOWCASE THEIR PRODUCTS AT MOSBUILD EXHIBITION.
